## Availability List

### Hello Puerto Vallarta, Mexico!

Recently Sandra and I had the privilege of traveling to Mexico. You're thinking beaches and sunshine but what we did was far better than that! First, a bit of history. Pancho (really named Francisco Barrera) has worked with us for 20 years. Each winter when the farming and nursery slow down, Pancho and his wife Felicitas, travel down to their home in Xacilisco, Nyarta, which is about 80 miles north of the popular resort area of Puerto Vallarta. Sandra and I have always talked about going down to visit Pancho and his family sometime and this winter just happened to be that "sometime." Wow, what a privilege. It was rewarding and humbling to meet Pancho's family and extended family after working together for 20 years. (Check out our pictures on this page and the next for some highlights.)

Here is Pancho showing us some LARGE avocados grown on a family property.

A large load of sugarcane coming into the plant to be processed.

After spending some time in Mexico we arrived back California and I had a terrible ear ache. So I sought out an urgent care. The nice lady there said it would be a \$295 deposit and we would know the balance later. So we gave her the money and was seen by the doctor. Upon checkout, I enquired about the balance of our final bill. She said, "We do

not know yet. It could be more or less than the deposit. So watch the mail and you will either get a bill for more or a check for reimbursement." I scratched my head. Really? I'm not sure I would have anyone buying my trees at Garden Gate if I operated that like. It would go something like this. We at Garden Gate would like to make at least a 25% profit margin in 2016. In order to do that we will bill you at the price listed every time you order. At the end of the year we will bill you any extra amount needed in order to make our profit. My guess is we would see a significant reduction in sales. So, even though I am still waiting on the outcome, you never will when you buy our trees. We strive to give you the best deal on the best quality trees.

In anticipation of increased demand for our quality trees we have stepped up production. We believe we can meet your demands. We look forward to helping you get the proper plant material you need for your projects.

Our Garden Gate West facilities, located in the

*Continued on page 2*

In July, we shared a picture of four of our latest grandchildren. Here they all are now with the latest arrival on the right. Piper, the second from the right leaning forward, is Rachel's baby ready to take your call. One boy in that bunch of girls and he is taking the situation pretty serious.

### More Trees!

The plant list enclosed is our best projection for the year ahead. This forecasts how we hope and expect our inventory to progress throughout the year. The last two pages, for the first time ever, show our inventory in Oregon.

Spring 2016

## Mexico continued...

Willamete valley in Oregon continues to get organized and our varieties are expanding. With this expansion, we have a better ability to broker jobs for you now than we ever had. Because to this expansion, our trucks are often commuting between Pasco and Portland. Full trucks benefit everyone. If you need anything, let us know. We are here to serve you.

We look forward to working together again during 2016.

The Xaciliso area is a major sugar cane production part of Mexico and contributes to the local economy with a large processing plant in the nearby capitol city of Titepec.

All the fresh produce was simply awesome!

These are some the #7 sized pears tucked in the hoophouse just waiting until the weather warms up.

Enjoyed meeting some of Pancho's family, while enjoying the farm land behind us.

Along with Sugarcane, is banana production avocados and coffee.

## Rachel's Corner

Hello...January??? You have got to be kidding...is it really January of 2016 already? It feels like yesterday I was writing to you about our Sweet new Baby and all the adjustments and then I woke up today to a 7 month old, winter passing us by and 2016 arrived. I honestly do not know where time goes, but one thing for sure, if you do not take time to enjoy the 'Little Moments' they are quickly gone. With this in mind I am enjoying the last slow days of winter with Lil' Piper, before we get crazy busy with Spring planting and Summer shipping! Jesse & I with Piper are hoping to enjoy some sunshine in Arizona the first of February and take a little time to chill in hopes of being ready to hit the ground running come March. I am looking forward to working with each of you again and I think

so is Piper. She has a way with getting her point across rather loudly, so if I am talking to you on the phone and you hear a Loud yell or growl... no worries, it is just Piper putting her two cents worth in. (I really wonder where she gets that from 😊) We hope this finds you all doing well and ready to hit Spring off with a bang. Please feel free to contact us with any questions, or Spring orders! ~Blessings

Not all trees work good everywhere. This picture proves that point. This is a Pyramidal Hornbeam in a Pasco parking lot. You can see by the stress on the bark that this spot is obviously too hot for this type of tree to thrive. We are convinced a better choice for this spot would be a columnar oak. If you have questions about tree varieties or need suggestions, please ask us. We want your trees to be thriving not just surviving.

Sandra & I enjoying our time in Mexico.

All tree stock over 2 1/2" begin on page 15

### Terms and Conditions of Sale

**Pricing:** Prices are quoted in U.S. dollars, and are listed for wholesale nursery trade within the United States and Canada only. We offer volume discounts on accounts with approved credit and if paid within terms. Prices do not include freight costs. The price list included replaces all previous prices offered by Garden Gate Nursery, and is subject to change without notice. Garden Gate Nursery is not responsible for typographical errors on pricing.

**Terms:** To customers with approved credit, we offer terms of Net 30 days. Customers with no established or approved credit must prepay orders prior to shipping. A charge of 1.5% per month on the unpaid balance will apply on past due accounts.

**Guarantee:** Garden Gate Nursery warrants that all trees sold will be true to name and in healthy condition when they leave the nursery. Garden Gate Nursery is prepared to replace or refund the purchase price of any such nursery stock that may, with sufficient proof, be found otherwise. Garden Gate Nursery disclaims any other warranty, as to productiveness or growth, damage incurred through shipping, etc.

Claims for any purpose will be considered only if made within 14 days after delivery of stock. It is mutually agreed that our total liability will not be greater than the original amount received. This warranty is void if payment for all nursery stock purchased is not made in full when due.

**Shipping:** Prices stated are F.O.B. 2761 W. Sagemoor, Pasco. Customers are responsible for arranging shipping unless other satisfactory arrangements are made. For all other orders, please call for delivery prices.
